

Rotarians Tour UWEC Davies Center Construction Site June 6, 2011

On Monday June 6, Rotarians gathered at the existing UW-Eau Claire Davies Center to tour the construction site of the new W.R. Davies Student Center. Construction began in March of this year and is expected to be completed in the summer of 2012. The following is an artist's rendering of the new facility.

After the tour, we convened in the Dulany for lunch, after which Chancellor and fellow Rotarian Brian Levin-Stankevich addressed our group.

Thank you to Marcia Van Beek and the UWEC Foundation for organizing and hosting the day's event.
